

CALIFORNIA FRUITS

Mr. Mills Has a Feasible Plan

TO INCREASE THE FRUIT SALES

He Wants It So Arranged That Trains Will Stop at Every Hamlet.

SAN FRANCISCO, August 9.—J. B. Emory of Oakland, president at the monthly meeting of the state board of trade today, William H. Mills outlined a plan for increasing the market for California fruit. He showed that in 1891, 251,214 tons of fruit had been shipped from this state by the Southern Pacific line to such points of sale as made it possible to reach only 6,000,000 people. Perhaps 15,000 tons had gone by sea, and as a result of his researches he was sure that at least 500,000 tons of California fruit had been sold in 1891-92. He believed that the value of the fruit crop of this state, including all its forms, wine, raisins, dried and fresh, would reach \$30,000,000, and that the present methods of shipping only one-tenth of the population of America was accessible as a market. The whole of the dried fruit crop had gone from the state.

The measure of market for early perishable products, said Mr. Mills, is the number of people to whom they can be conveyed in a sound, reliable condition. You have sent thousands of tons of fruit right by the doors of persons in Iowa, Kansas, Missouri and other states who would gladly have purchased it, but because it has been so difficult to get to Chicago the depot, so adjust your train service and so build your cars that you can send out many trains every day on fast time that may stop at every hamlet and city and leave such fruit as desired, and in a short time you can have 50,000,000 people for customers and can sell 3,000,000 tons of fruit every year if so much can be raised. Fruit growing in to be the chief industry of California, and as food, the demand for it is increasing with the certainty of supply and reasonableness in price can be assured. California fruit sells better than any other, and should be conducted precisely as that in western countries, and if the plan suggested can be put into operation every acre of land in the state capable of supporting trees will soon have its prosperous occupant and the brightest future under the sun will have been reached.

Mr. Mills will resume his subject the second Tuesday in September, when he will present a schedule on which a plan may be at once made.

The operative board appointed Eugene J. Gregory, L. C. McElroy and E. W. Martin a committee to consult with Wells-Fargo and other companies upon the details of the Mills plan.

GRAHAM'S WIDOW

ATTEMPTS TO KILL HER HUSBAND'S SLAYER.

But the Weapon Failed to Work—Ed Tewksbury Surrenders—A Lively Trial.

PHOENIX, A. T., August 9.—During the preliminary examination today of John Rhodes, accused of being one of the murderers of Thomas Graham on August 2d, Mrs. Graham, wife of the murdered man, attempted to shoot the defendant and was prevented only by an accident.

At 3.30 p.m., as the trial was in progress before Justice Hosen in the court-house, Mrs. Graham, who was fifteen feet from the prisoner, sprang from her chair, drew a revolver, rushed to Rhodes, placed the pistol against his breast and pulled the trigger, but the pistol missed fire.

She had the pistol in a futile effort to enter the courtroom. The handle of the pistol had caught in the table and she was unable to get it out. She was then seized by the police and taken to the jail.

A great rush from the court room was made, lawyers and reporters piled under tables and officers rushed to the scene. Sheriff Montgomery took the pistol away, with the assistance of several deputies, after a desperate struggle.

The lady pleaded for the gun to shoot him. The justice ordered her removed from the court room, but she returned to the stand and again attempted to shoot the defendant. She was then taken to the jail.

The examination began on Monday and will last until the 15th. It will last all the week.

Ed Tewksbury, who surrendered to the sheriff of Gila county, is expected here tomorrow.

The Zulu Objected.

BREKNEWICK, August 9.—John Lucas, known as the African Zulu, rode well nigh naked on the top of a circus wagon, during the parade here yesterday. Boys gazed him and finally employed eggs and fruit. This so enraged the Zulu that he sprang from the wagon with a war whoop and attacked the boys like a savage beast, biting into their flesh wherever he could find a weak spot.

Before the negro could be driven off he had severely bitten John Hickey on the arm, James Johnson on the neck and Robert Applegate on the breast.

Fail of Gold.

MOUNTAIN HOME, Idaho, August 9.—There is great excitement here over the discovery of fabulously rich gold bearing quartz ledges in Blaine district, twenty-one miles up the Snake River. On one ledge a shaft has been sunk fifty feet which has exposed a large vein, giving an average assay of fifty-nine ounces of gold to the ton. Other and smaller veins give much lighter returns.

ON MANY TRACKS YESTERDAY

Alonso Wins the Big Junior Championship Stakes at Monmouth Park.

MONMOUTH PARK, August 9.—The expected feature of the day, the junior championship stakes, resulted in a hollow victory for Don Alonso, the giant son of Long Tom and Round Dance, who won the \$10,440 prize in the commonwealth of centers. Alonso's immense stature enabled him to take two strides to his opponent's four.

Lois Violet was the favorite at 13 to 3, while Alot 2 held at 7 to 2.

The champion stakes is one of the most exciting and hardest fought battles of the year.

The seven starters in the race were in a solid bunch, with Dartmouth cutting out the pace for a lively clip for a mile and a half. Then they lined themselves across the home stretch in a beautiful bunch, spurs and whips being freely used.

The final sixteenth lamp lighted the race and the great roll crossed the wire a winner by a length, in 2.32 1/2.

This is a quarter record faster than Alonso's record, made several years ago. He won the second money from Long Tom and Round Dance.

Alonso's record was 2.32 1/2. The race was a close one, with many good horses.

Barrels of Opium.

WASHINGTON, August 10.—Solicitor Hepburn, of the department of justice, today instructed the United States district attorney at Portland, Or., to libel the British steamer Wilmington and prosecute each of her officers as were concerned in the recent attempt to smuggle opium into the United States.

The smuggling was to pack opium into barrels with some tin material and then throw the barrels into the Columbia river at a point about thirty miles below Portland, where they were to be recovered by confederates in waiting. The authorities had been watching the vessel for some time and captured five of the barrels thrown overboard on her last trip, and in this way secured good evidence of her operations.

THE STATE FAIR

Will Be One of the Greatest Yet.

EXTENSIVE PREPARATIONS MADE

A Departure That Will Attract People From All Over the State.

SACRAMENTO, August 9.—The state board of agriculture had a meeting tonight to make final arrangements for the state fair. The board were overwhelmed with applications for space at both park and pavilion. The demand for stall room alone is so great that the directors do not see their way clear to accommodate all the applicants; Palo Alto alone asks for twenty stalls.

The directors are greatly impressed by the magnitude of the historical exhibit, and will have erected a museum and a modern locomotive and passenger coaches. Everything points to the greatest exhibition ever held in the state.

In It Hereafter.

BIRMINGHAM, August 10.—An inventive genius of an officer named Thomas, of the German artillery, who was in 1884 sentenced to eleven years' imprisonment for treason today secured his release under a commutation of sentence. During his incarceration he invented a process which is a great improvement in the construction of cannon. The government was notified by the prison officials of the invention, and after visiting the prison and examining it, reported that it was a valuable discovery. Thomas was today given his liberty, and will become wealthy from his invention.

Looks Like Bulldozing.

PITTSBURGH, August 10.—In Alderman McMaster's mail yesterday was an anonymous letter posted in New York at noon Monday. The letter was written in a hand probably disguised. It said: "Somehow this week a party of men will leave here and will try to kill you and Superintendent Price again." McMaster has been in Michigan for some weeks. The letter was turned over to the state attorney, who, after reading it, said: "I suspect the letter was written here and was sent to New York to be mailed." All the attorneys engaged in prosecuting the Homestead strike are here, and the letter was received several letters of a threatening character.

Markham at Camp Columbus.

McNulty Must Hang.

SACRAMENTO, August 10.—Governor Markham today issued the following decision in the matter of the commutation of the sentence of John McNulty, sentenced to be hanged in San Francisco next Friday, for the murder of John Collins:

The governor says: "I have, after mature deliberation, determined not to interfere in the execution of said sentence. Very careful personal examination of the evidence as taken by the stenographer at the trial of this case convinces me that the judge who presided acted at all times in an impartial manner, that McNulty was ably defended by counsel, and that as a result he had a fair trial."

Misconduct in Office.

SAN DIEGO, August 10.—At the trial of the suit instituted by G. E. Heath against County Clerk A. M. THREATENED LYNCHING

Commutation of a Murderer's Sentence

CAUSES INTENSE EXCITEMENT

Governor Buchanan Hanged in Effigy and Denounced by the City Press.

MEMPHIS, Tenn., August 10.—The city was thrown into a state of intense excitement when the announcement appeared in the morning papers that Governor Buchanan had commuted the sentence of Colonel H. Clay King, who was to have been hanged on the 12th instant for the murder of D. H. Poston, to imprisonment for life.

The Appeal-Avalanche, in this morning's issue, criticized severely the action of the governor in commuting the sentence, and the Evening Scimitar vehemently denounced him in a sensational editorial.

The publications aroused an intense feeling and a mass meeting was arranged for tonight at which Governor Buchanan was to have been hanged in effigy. It was stated that the jail would be attacked and the prisoner lynched. So great was the anxiety that the Criminal Court Judge Dumas issued an order late this evening for the sheriff of Shelby county to deliver King to the keeper of the penitentiary at Nashville.

Sheriff McLendon took Colonel H. Clay King from the jail this evening and on the train carrying the prisoner at McKeen's at 3 a.m. Hundreds of friends of Poston will take this train and overtake the prisoner, and if they do there will probably be another tragedy.

At 10 p.m. a severe rain storm prevailed. After the rain subsided a crowd of people assembled at the corner of Main and Madison streets, the most central point in the city, and after hanging an effigy of Governor Buchanan to a telegraph pole, set the dummy on fire and watched it burn. There was no speaking indulged in.

The convention then adjourned until tomorrow at 10 a.m.

Cut in Freight Probable.

SAN FRANCISCO, August 10.—It is stated here that a big cut in freight rates between here and New York is contemplated by the Southern Pacific company, owing to the strong opposition on non-perishable goods by new lines of clipper ships. The Southern Pacific has appealed the transcontinental association to agree upon a new tariff between here and New York that would make large cuts in the rates on many articles. To Be Given Another Chance.

SAN FRANCISCO, August 10.—The Examiner says that late tonight Governor Markham indicated that he would grant John McNulty, the condemned murderer, fifteen days reprieve in order that new evidence may be investigated. "To-day Captain Bernard Dwyer and his sailors arrived in port. They had not been here since the day that McNulty killed Collins, and as soon as they heard McNulty was to hang they hastened to tell McNulty that they had seen the sailor and knew that was justifiable. The story tallies exactly with the story McNulty has already told, and on the fact being telegraphed to Governor Markham at Santa Cruz, he answered, indicating that he would grant the reprieve.

Libelous Fruit Circular.

SAN FRANCISCO, August 10.—California fruit growers are greatly exasperated over the report which recently appeared in New York papers stating that the California prune crop this year would be 25 per cent of last year. This report, coming out of a private circular issued by a New York fruit buyer named McKibbe, California orchardists claim the crop will not be 65 per cent of last year's crop, and that the report of a big yield will seriously affect prices. McKibbe's statement is denounced, and he has agreed to send another circular correcting his first estimate.

Ninety Persons Drowned.

ST. PETERSBURG, August 10.—It is ascertained that the pleasure steamer run down by the steamer Runenberg outside of Island on Monday was the Ajax. DELIBERATE MURDER.

AN AGGRIEVED RANCHER KILLS HIS OPPONENT.

The Assassin Lays in Wait All Night by the Roadside for His Victim.

RIVERVIEW, August 11.—While Mrs. Wall, wife of Peter Wall, a prominent business man of Elmore, was driving through Temescal canyon today, accompanied by her son Ed, a young man named Elmer Walters stepped from the roadside and raising a gun he was carrying fired at the occupants in the buggy, killing Ed Wall instantly and badly wounding Mrs. Wall.

The news of the shooting caused much excitement in the town, and a posse was immediately formed to go in pursuit of the murderer.

The latter was taken near South Riverside and turned over to Sheriff Seymour at San Bernardino.

There has been considerable trouble between the Wall and Walters families over disputed water rights, and the court proceedings resulted in a decision in favor of Wall.

About a week ago Mr. Wall was accused by two men of a crime which he thought lightly of the matter at the time, but now believes the murder had been deliberately planned.

Walters slept all night beside the road where his victim afterwards passed, and shot without flinching from the ground. He fired twice, and it is believed intended to kill both mother and son.

Mrs. Wall had fallen shot in her right side, one or two having penetrated a lung. The doctor says there is a chance for the woman to recover. Excitement is running high.

Walters, after being arrested, told the following story of the affair:

"I was in a canyon working on the ditch over which the trouble originated, when young Wall came up with a shovel and began turning the water into another ditch. I told him to let it alone, whereupon Wall started for me with a shovel in his hand with malicious intent. I warned him off repeatedly, but he would not listen."

Walters claims he was on his way to surrender when overtaken. The coroner's jury will not be ready to report a verdict until tomorrow, as the scene of the murder is off the railway and not easy to access.
